OFFICE OF PETITIONS

This is a corrected decision on the petition filed January 8, 2001 under 37 C.F.R. § 1.183 requesting waiver of the requirement of 37 C.F.R. § 1.821(c), for a paper copy of the sequences. The petition requests acceptance of a copy of the sequences provided on a compact disc.

The petition is **granted**.

Applicant is given TWO MONTHS from the mailing date of this notice to submit the missing parts noted below. Failure to respond will result in abandonment of the application. Any extensions of time will be governed by 37 C.F.R. § 1.136(a).

37 C.F.R. 1.52 was amended, effective November 7, 2000, to allow the submission of certain information on compact discs in lieu of paper. Any electronic documents submitted in response to this petition decision must comply with 37 C.F.R. § 1.52(e) and 37 C.F.R. § 1.821 et seq. See Changes to Implement Patent Business Goals, 65 Fed. Reg. 54603, 54665 and 54681 (Sept. 8, 2000) and 1238 OG 77, 130, 131, 145 and 146 (September 19, 2000).

The compact disc filed on September 26, 2000, is understood to be part of the specification of the application as now permitted by 37 C.F.R. § 1.52. Applicant has not complied with 37 C.F.R. § 1.52(e) and 37 C.F.R. § 1.821(f) which require petitioner to file the Computer Readable form required by 37 C.F.R. § 1.821(f) AND two compact discs per 37 C.F.R. § 1.52(e).

Applicant is required to file two compact discs labeled "copy 1" and "copy 2" which are identical to the originally filed disc. Applicant is also required to file a statement that the disc filed September 26, 2000, is the same as copy 1 and copy 2. An amendment to the specification incorporating by reference the material on the compact discs and the files contained on the compact discs is also required. See 37 C.F.R. §§ 1.52(e), 1.77(b)(4) and 1.823(a)(2).

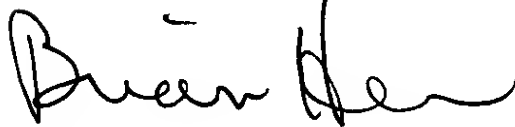

After this decision is mailed, the application will be returned to the Office of Initial Patent Examination (OIPE).

Any response to this decision should be mailed to:
